REPLY TO DECISION PURSUANT TO 37 CFR 1.42
AND
REQUEST FOR CORRECTED FILING RECEIPT

Sir:

This communication is in reply to the Decision pursuant to 37 CFR 1.42 dated November 21, 2006, a copy of which is enclosed, and further to the telephone conversation between the undersigned and Attorney Advisor Richard M. Ross.

The aforementioned Decision states the following:

It is noted that the present decision presumes that Jeffrey M. FISHER, the legal representative who executed the declaration for the then-incapacitated inventor is also the legal representative of the now-deceased inventor's estate. If this is not the case, and there is a different legal representative for the deceased inventor's estate, applicants **must** contact this Office immediately and provide a declaration executed on behalf of the deceased inventor by the proper legal representative.

Serial No.: 10/553,554
Case No.: 21375YP
Page 2

Submitted herewith is a Declaration executed by Louis L. Zuegner III, Legal Representative, on behalf of the deceased inventor Michael H. Fisher. Applicants submit that all requirements pursuant to 37 C.F.R. 1.42 have been fulfilled.

With respect to the Declaration submitted herewith, Applicants respectfully request that the Filing Receipt be corrected accordingly. Applicants also note an error in the filing receipt under the heading Domestic Priority Data As Claimed by the Applicant. The priority application number incorrectly reads "60/444,523 01/31/2003" but should read --60/463,775 04/18/2003--. A copy of the Filing Receipt with the changes noted thereon is enclosed.

If there any questions with respect to this reply, please contact the undersigned at the telephone number provided below.

Respectfully submitted,

DECISION
(37 CFR 1.42)

In a decision mailed by this Office on 28 August 2006, the declaration filed on behalf of inventor Michael H. FISHER by his legal representative Jeffrey M. FISHER was rejected without prejudice. Specifically, the declaration was rejected because applicants had not made clear whether the declaration was being filed under 37 CFR 1.42 or 37 CFR 1.43.

On 11 October 2006, applicants filed a response to the previous decision. The response states that inventor Michael H. FISHER was legally incapacitated at the time the declaration was executed, but that the inventor is now deceased. Because the inventor is now deceased, the declaration filed 18 October 2005 is properly considered under 37 CFR 1.42 and 1.497(b)(2).

A review of the declaration confirms that it includes all the information required under 37 CFR 1.42 and 1.497(b)(2).

The request for status under 37 CFR 1.42 with respect to deceased inventor Michael H. FISHER is therefore **GRANTED**.

It is noted that the present decision presumes that Jeffrey M FISHER, the legal representative who executed the declaration for the then-incapacitated inventor, is also the legal representative of the now-deceased inventor's estate. If this is not the case, and there is a different legal representative for the deceased inventor's estate, applicants **must** contact this Office immediately and provide a declaration executed on behalf of the deceased inventor by the proper legal representative.

The application will be referred to the National Stage Processing Branch of the Office of PCT Operations for further processing in accordance with this decision. The date under 35 U.S.C. 371(c)(1), (c)(2), and (c)(4) is 18 October 2005.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER Title 35, United States Code, Section 184 Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted

under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
